AMDOR Paint Approval Process

- Paint code must be listed on the purchase order or Excel order sheet. Orders without a paint code cannot be accepted.
- Customers with preapproved paint codes must ensure the approval is still valid (preapprovals expire after 1 year). Expired codes require a new spray out.
- Paint samples must include the PO number and paint code, be a minimum of 2" x 3", and be free of scratches, debris, and defects.
- Send **USA** paint samples to:
AMDOR LLC
Attn: PAINT SAMPLES
4304 Walden Ave
Lancaster, NY 14086
Attn: Paint Samples
- Send **CANADIAN** paint samples to:
AMDOR INC
Attn: PAINT SAMPLES
3435 South Service Road
Burlington, ON L7N 3W6
- AMDOR will provide a matched spray out. Signed approval must be returned before production can begin.
- Common issues that cause delays include small or cut samples, insufficient paint coverage, missing identification, and orange peel.
- If approval is not received one week before production, follow-up actions will occur. Orders without approval will be rescheduled a minimum of 4 weeks or to the next available production slot.
